SKILLS

Languages: JavaScript, Typescript, C, C++, HTML, CSS, Java,

Tools: React, Node.js, Git, Visual Studio, VS Code, Heroku, Arduino

Certifications: Fortinet Network Security Associate 1, Fortinet Network Security Associate 2

PROJECTS

Money Tracker ***Node.js, React, Heroku.***

Full-stack web application made to organize income and expenses

- Created a **Context API** with **React Hooks** to send HTTP requests and manipulate data.
- Added functionality to add or delete tasks by implementing React Icons and Global State.
- Deployed website using **Heroku** increasing responsiveness by **20%**.
- Utilized Git for version control to track progress throughout the development of the app.

Task Manager ***Node.js, React, Heroku.***

React web application made to organize daily tasks or events

- Created a web application using **Node.js**, **Javascript** and **React hooks**.
- Designed React Icons and **styled components** to create a dynamic UI/UX.
- Incorporated Expressions in **JSX** and **form component state** (controlled states).

Covid-19 Distance Sensor ***C++, Arduino.***

A device built using Arduino, LCD, and Ultrasonic sensor to locate a person's distance

- Coded functionality using **C++** to make a sensor that can measure a person's distance from the wearer.
- Implemented real-time location tracking with Ultrasonic Sensor, accurate to within **3** meters.
- Fabricated a device to promote social distancing to ensure safety of classmates and citizens.

LED Cube ***PICAXE, PTH Soldering.***

3x3 LED Cube controlled by PICAXE-20X2 microcontroller

- Assembled LED Cube and programmed functionality using **PICAXE** to initiate the program.
- Rectified code by programming a test code to ensure functionality of all built in components.
- Implemented PICAXE-20X2 chip which increased responsiveness of the pattern by **10%.**

WORK EXPERIENCE

Active Green and Ross **Mississauga, ON**

Junior Mechanic Intern *January-March 2020*

- Operated under immense pressure while providing excellent customer care service to **10+** customers daily.
- Collaborated with **3+** assistants on tire/oil changes and worked effectively with experienced senior mechanics.
- Ensured safety measures and guidelines for fixing engines and reached **100%** customer satisfaction at end of shift.

FX LAT Club **Mississauga, ON**

French Tutor/LAT Club Promoter *September-June 2021*

- Gathered insights using analytical tools to present findings to the **2+** founders, improving student count for the club by **10%** monthly.
- Collaborated with **5** tutors to develop study sessions and curriculum to help **10+** students weekly.
- Organized survey and all students have shown to increase their average by **6%** under my tutelage.

EDUCATION

University of Waterloo **Waterloo, ON**

Bachelor of Applied Sciences Electrical Engineering (Candidate) *Anticipated 2026*
